

Edison Casulo

ecasulo@gmail.com | Limassol, Cyprus

Professional Summary

Accomplished Full Stack Developer versed in both front- and back-end coding for countless sites. Expert in handling full software development lifecycle with focus on quality, security, and usability. Brings great multitasking and problem-solving abilities combined with advanced project management and coding skills.

Skills

- Software Life Cycle
- Project Management
- Application Development
- Requirements Gathering
- Team Collaboration
- Code and Quality Standards
- Concept Development
- Technical Analysis
- Resource Allocation

Experience

Full Stack Developer

2016 - Current

MM Virtual ICT, Limassol, Cyprus

- Lead the development of web applications, ensuring high-quality code, performance optimization, and adherence to project timelines.
- Collaborate closely with cross-functional teams, including designers and project managers, to translate project requirements into technical solutions.
- Architect, design, and implement scalable and responsive web applications, emphasizing user-friendly interfaces and seamless user experiences.
- Utilize expertise in PHP, Laravel, JavaScript, and front-end libraries (e.g., React, Vue.js) to build dynamic and interactive web applications.
- Conduct thorough code reviews and mentor junior developers, fostering a culture of continuous improvement and knowledge sharing.
- Troubleshoot and debug complex issues, employing problem-solving skills to identify and resolve technical challenges.
- Stay current with industry trends and emerging technologies, evaluating their potential to enhance project development.
- Collaborate with third-party APIs and integrations to extend application functionality and deliver robust solutions.
- Maintain version control and code documentation to ensure codebase integrity and facilitate team collaboration.
- Implement best practices in web security, performance optimization, and SEO to enhance website reliability and visibility.
- Foster effective communication and collaboration within the development team, streamlining project coordination and ensuring clear task assignments and responsibilities.
- Continuously improve development processes and workflows to enhance team efficiency and project outcomes.

Senior Developer

2013 - 2015

Remote, Various, Montevideo, Uruguay

- Created highly responsive and scalable web applications for use in different industries and client environments.
- Executed programming projects adhering to coding standards, design styles, and project management methodologies.
- Achieved development milestones and scheduled targets.

- Helped manage a fast-paced software delivery model from within a complex development ecosystem.
- Developed websites with accessibility and compatibility for different browsers.
- Met application goals with expert use of optimal development tools and frameworks.
- Detected problems provided by client's feedback and implemented solutions.
- Designed, tested, and debugged applications from foundation to full production.
- Managed back-end server logic protocols and database connections.
- Analyzed technical requirements to determine optimal solutions.
- Researched the latest website applications to keep up with trends and latest technologies.
- Attracted users to websites with professional, user-friendly designs and clean code for high-performance operation.

Assistant Developer

2010 - 2012

Junta Departamental de Montevideo, Montevideo, Uruguay

- Collaborated with senior developers to assist in the development and maintenance of web applications.
- Produced high-quality code characterized by its clarity, readability, and adherence to coding standards and best practices.
- Assisted in the routine maintenance of websites, including updates, bug fixes, and content management.
- Conducted thorough testing of web applications and troubleshoot issues to ensure functionality and performance.
- Participated in code reviews to learn best practices and improve coding skills while maintaining codebase integrity.
- Helped create responsive and user-friendly web designs that adapt to various screen sizes and devices.
- Ensured web applications work correctly across different web browsers and platforms.
- Utilized version control systems to track and manage code changes.
- Maintained accurate documentation for code, processes, and project-related information to facilitate team collaboration.
- Assisted in identifying and resolving technical issues, including compatibility problems, bugs, and performance bottlenecks.
- Stayed updated on web development trends, technologies, and best practices to enhance skills and contribute fresh ideas to projects.
- Collaborated with team members from various disciplines, such as designers, project managers, and quality assurance, to deliver effective solutions.

MT4/MQL Developer

2010 - 2012

StarFastFX, Montevideo, Uruguay

- Collaborated with developer teams, clients, and vendors to deliver software projects.
- Planned and developed creative software solutions to meet business goals and objectives.
- Analyzed usage data, feedback, and performance reports to improve user experiences.
- Converted user requirements into technical designs and developed scopes to guide project work.
- Designed and developed software applications using programming languages and associated frameworks.
- Brainstormed development ideas based on technical know-how, project goals, and market trends.
- Delivered projects on time and in line with specifications outlined by project managers.

Freelance Developer

2006 - 2009

Freelance, Montevideo, Uruguay

- Created highly responsive and scalable web applications for use in different industries and client environments.
- Attracted users to websites with professional, user-friendly designs and clean code for high-performance operation.
- Achieved development milestones and scheduled targets.
- Met application goals with expert use of optimal development tools and frameworks.
- Researched the latest website applications to keep up with trends and latest technologies.
- Designed, tested, and debugged applications from foundation to full production.

Education

Bachelor of Science (B.S.) in Computer Science - CTL EuroCollege, Limassol, Cyprus	2021
Bachelor of Science (B.S.) in Computer Science - Universidad ORT Uruguay, Montevideo, Uruguay Degree abandoned due to relocation.	2013
High School in Computer Science - Elbio Fernandez, Montevideo, Uruguay	2006
